

I would like to comment on how the proposed expansion of LPFM would affect me personally. I am a long-time listener of K-LOVE, a contemporary Christian radio program which is in danger of being displaced with LPFM expansion. K-LOVE provides spiritually uplifting and family-friendly radio programming to my local community of Omaha, NE. Although it is a small, non-commercial broadcast, K-LOVE has a daily impact on my life and on the community of listeners in this region. I view K-LOVE as a community service and is of great interest to the public in these uncertain times. Our local community would suffer should K-LOVE be displaced. Please consider protecting valuable FM translator service.
